

MahjongMaster-alpha Installation and Operation Guide

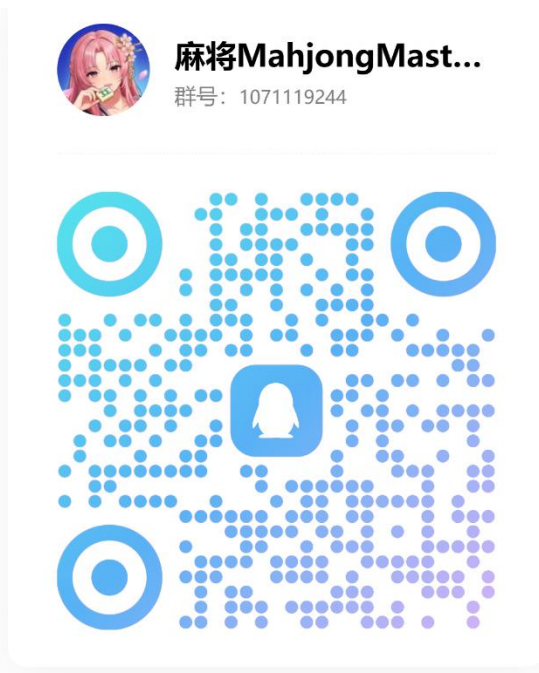

Foreword:

During the internal testing phase of MahjongMaster, version iterations are frequent.

To ensure that known bugs are fixed, be sure to join the internal testing QQ group or Discord community to obtain the latest version.

Scan the code or search for the group number to join now:

Official QQ group number: 1071119244

DC Community (updated in sync with the QQ group):

Operating Instructions:

Download the installation package

(Antivirus software such as Windows Defender may generate false positives, which is normal.)

Installation and Startup

1. **Select the installation path:** Run the installation package. It is recommended to keep the default path or choose a path that uses only English characters.
2. **Complete the installation:** Click “Try Now（立即体验）” to launch the software. The first time you start it, the AI model will need to be loaded, which may cause a delay of 10–30 seconds. Please be patient and wait.

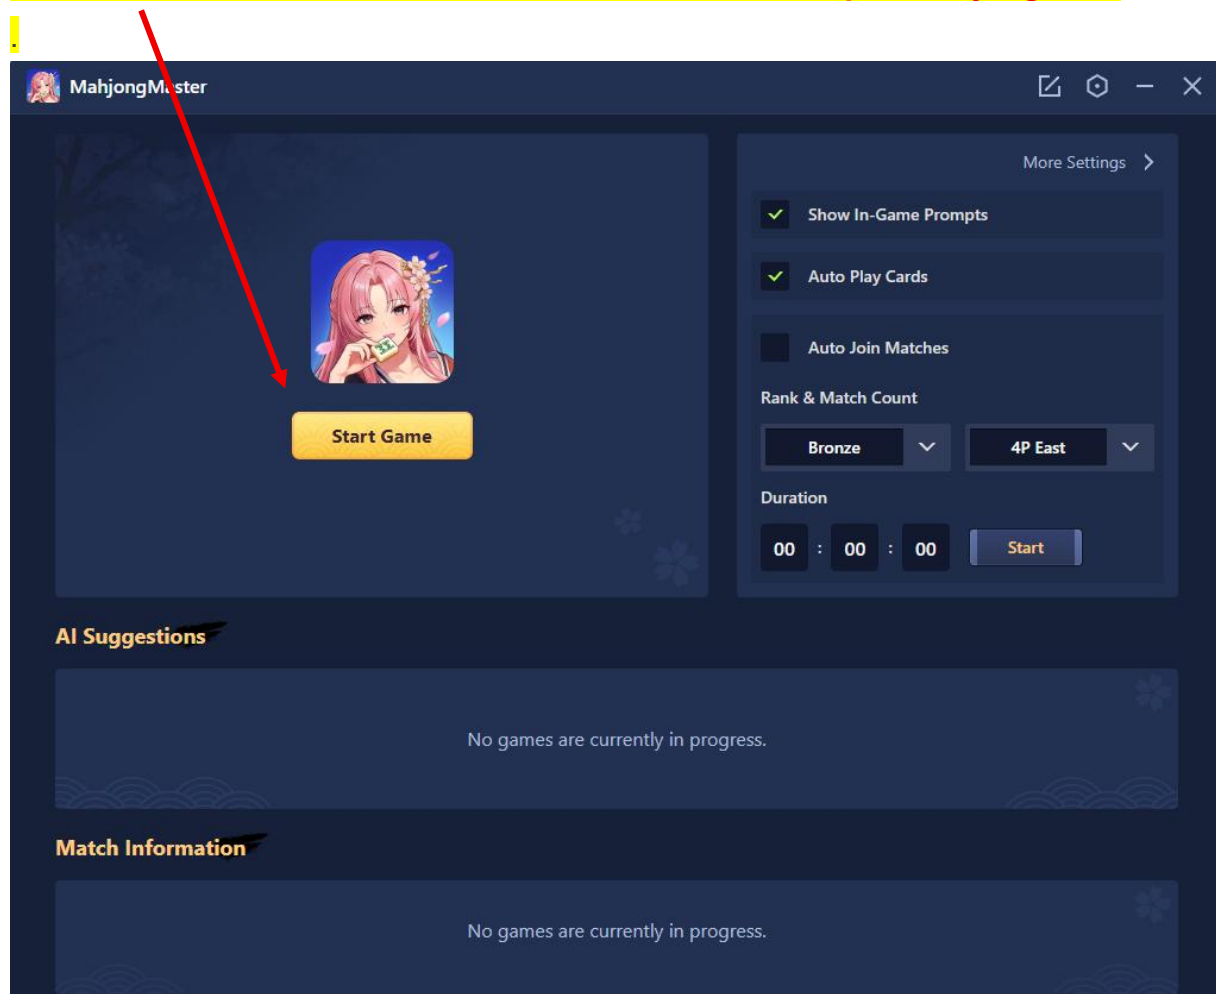

Client interface

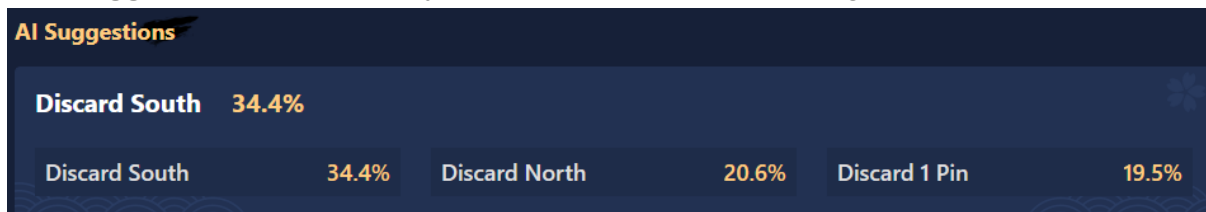

- 1 Start game: Launch the built-in browser and open Mahjong Soul.
- 2 Show In-game prompts: When enabled, a tile-discarding prompt overlay will be displayed in the game.
- 3 Auto Play Cards: The master switch for automated operations; when turned off, all automated operations will be halted.
- 4 Auto Join Matches: Based on the rank and mode selected in the settings, automatically join the next game; automatic joining requires access from the main Start from the menu or in-game. You can set a timer for auto-joining; when the timer ends, auto-joining will stop.

Note: ① It is recommended not to enable the automatic function for idle card playing; please operate manually only to avoid the risk of account suspension!

②Steam, and Mahjong Soul client version are currently not supported. Please click "Start Game" to launch the built-in browser and open Mahjong Soul

5 **AI Suggestions:** Provide analytical results based on real-time game context.

6 **Match Information:** Display the current hand tiles.

7 **More Settings**

Setting

Basic Settings

- ☒ Show In-Game Prompts
- ☒ Auto Play Cards
- ☐ Random Mouse Movement
- ☐ Move Mouse When Idle
- ☐ Auto Join Matches

Rank & Match Count: Bronze (dropdown), 4P East (dropdown)

Duration: 00 : 00 : 00 (timer), Start (button)

Model: Alpha (dropdown)

Language: English (dropdown)

Client Size: 100% (Default) (dropdown)

☐ Automatically open web games when launching the assistant

00.00.00.15Version (version), Update (button)

Device ID: 096b4af53c89e8c3b1eaf4a53ef7a38c

①

Random Mouse Movement: The mouse will move randomly several times before clicking to avoid being detected as an automated operation.

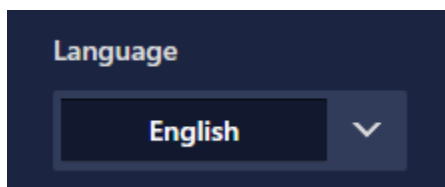

Mouse Movement When Idle: The mouse will randomly move with a certain probability during idle periods (e.g., other players' turns).

②The current model of this tool is the self-developed Alpha model (Beta, Pro, and other advanced versions will be available in future updates).

③ This tool supports multiple languages (Traditional Chinese/English/Japanese).

④This tool can adapt to different servers of *Mahjong Soul* via custom launch links.

We look forward to your feedback after using this tool (feel free to share your thoughts in the DC community or fill out the feedback questionnaire)!

Important Notes:

- ① This tool is for educational and communication purposes only; commercial use is strictly prohibited. Please take good care of your account, use the Auto Play function moderately, and refrain from fully automated AFK (Away From Keyboard) farming.
- ② If you encounter technical issues such as **missing AI prompts, screen misalignment, or client crashes**, we recommend restarting the software first. If the issue persists, please try uninstalling and reinstalling the tool. If the problem still cannot be resolved, feel free to submit screenshots via the DC community or contact the owner directly—we will fix it as soon as possible.
- ③ This tool currently supports **Mahjong Soul on PC only**. Mobile compatibility and support for various online mahjong games will be rolled out gradually in the future—stay tuned!
